Ref D.Thomas Gardening Solutions  
53 Boland Prospect

I have known Mr Thomas for many years and he has been managing the maintenance on both my commercial and residential properties for over ten years.

I have no hesitation in providing a positive reference for Mr Thomas and his team. During his gardening contract with me he has at all times been punctual friendly and very professional and I have never once had any complaints with the work carried out.

He is always determined to ensure the best possible outcome and expects the same high standards from his staff.

On the whole he carries out an exceptional and reliable service with his great attention to detail and I would therefore certainly recommend him.

Yours sincerely
