

# HARRISONS ENGINEERING (LANCASHIRE) LIMITED

STEEL STRUCTURES & HEAVY FABRICATIONS – MATERIALS HANDLING PLANT & EQUIPMENT – DUCT WORK & VESSELS

Hi Duncan

I thought that with the 3 year anniversary coming up since you undertook the ground maintenance contract of our five acre site. I would like to take this opportunity to offer another 2 year rolling contract if this agree able to yourself as per agreed terms.

The site as never looked better with comments even coming from our residents who live in close proximity.

You attention to all aspects of the work undertaken are greatly appreciated including your keen attention to the Health and safety aspects and waste disposal which are on a occasion seem quite tedious but are absolutely necessary and these are carried out meticulously by you and your staff.

Long may this working relationship continue if you have any queries please feel free to contact me

Kind Regards

Joe Roberts

Operations Director
